Table 1: Template for recording libraries' contributions to SDG13 through physical insfrastructure and operations			
Contributors	**Energy cost**	**Targets and Measures to reduce energy**	**Reduced Energy cost**
Building and infrastructure		e.g. using natural light; using sensors; efficient use of space (flexible space/furniture); green space	
Electricity		e.g. use of wind and solar energy	
Heating		e.g. energy-efficient heating (heat pumps; solar panels)	
Cooling		e.g. energy-efficient colling	
Printing/copying		e.g. reduced printing	
Publications		e.g. digital publications, cards, booklets…	
Digitisation		e.g. reducing print materials	
Specific services			
ICT		Using energy efficient computing	
Transportation		e.g. using electric vehicles	
Travel		e.g. reduced or alternative modes of travel	
Waste		e.g. reduced use of plastics; recycling
